

# Curriculum Vitae - Ji Hyun Yang

---

**Contact Information**      Mobile : +1 979-402-9447, +82-10-6355-2385(KR)  
Email : [jihyunyang@mymail.mines.edu](mailto:jihyunyang@mymail.mines.edu)

**Fields of Interest**

**Waveform Inversion**  
- Optimal generalized inverse for the Laplace and Laplace-Fourier domain waveform inversion  
- Regularization for waveform inversion

**Program optimization for geophysical software**  
- Parallel computing optimization with CUDA and MPI

**Machine Learning**  
- try to integrate machine learning scheme in Geophysical inversion  
- try to use Radial Basis function network to enhance the performance of Laplace waveform Inversion

**Signal Processing & Image processing**  
- Interest in PCA methods.

**Education**

**Phd Candidate** (Expected 2023)  
Geophysics, Colorado School of Mines, Golden, United States

**Master of Engineering** (February 2018)  
Energy Resource Engineering, Seoul National University, Seoul, Republic of Korea

**Bachelor of Engineering** (February 2016)  
Energy Resource Engineering, Seoul National University, Seoul, Republic of Korea

**Bachelor of Science** (February 2016)  
Computational Science, Seoul National University, Seoul, Republic of Korea

**Research Subjects**

**Researcher**      Aug. 2018 ~.  
*Institute* : Center for Wave Phenomena., Colorado School of Mines  
*Subject*: Data Processing of DAS(Distributed Acoustic Sensing)

**Researcher**      Mar. 2016 ~ Feb 2018.  
*Institute* : Geophysical Prospecting Lab., Seoul National University  
*Subject* : Research on Exploration Technologies and an On-site Verification to Enhance the Fracturing Efficiency of a Shale Gas Formation  
*Funding* : Ministry of Trade, Industry & Energy

**Researcher**      Mar. 2016 ~ Feb 2018.  
*Institute* : Geophysical Prospecting Lab., Seoul National University  
*Subject* : Iterative Direct Waveform Inversion for subsurface imaging  
*Funding* : Ministry of Trade, Industry & Energy

**Researcher & Algorithm Developer**  
*Company*: VisualCamp  
*Subject*: Eye tracking in mobile device - Computational Optimization, Face landmark detection, prediction

<b>Computer Skills</b>	<b>Programming</b> <ul style="list-style-type: none"> <li>- Advanced programmer in Modern Fortran(Fortran90)</li> <li>- Advanced programmer in C++</li> <li>- Advanced programmer in MATLAB</li> <li>- Advanced programmer in Python <ul style="list-style-type: none"> <li>Worked as a freelancer to create document auto-generating program for English tutoring</li> <li>Worked as a private tutor to teach algorithms</li> </ul> </li> <li>- Advanced programmer in Java <ul style="list-style-type: none"> <li>Worked as a private tutor to instruct computer programming, algorithms</li> <li>Worked as a freelancer programmer to create document auto-generating program for English tutoring</li> </ul> </li> <li>- Intermediate programmer in CUDA parallelization</li> <li>- Intermediate programmer in MPI parallelization</li> <li>- Experience in web framework Django: created personal blog</li> <li>- Experience in OpenGL, OpenMP, OpenCV, Tensorflow Libraries, Raspberry Pi</li> </ul>
<b>Associations</b>	Society of Exploration Geophysicists (SEG) Society of Petroleum Engineers (SPE)
<b>Internships</b>	<b>Visiting Scholar</b> Sep. 2017 ~ Dec. 2017 Geophysics Lab, Texas A&M University (Advisor: Dr. Gibson)
<b>Languages</b>	Fluent in Korean(Native) Fluent in English Performed English translation work of Inha University online public lecture (MOOC) for one year <ul style="list-style-type: none"> <li>- Physics lecture subtitle translation</li> <li>- FTA Economy Lecture Subtitle Translation</li> </ul> Worked as a support intern in Office of Public relations in Engineering department of Seoul National University to help foreign students TEPS(Test of English Proficiency developed by Seoul National University) 864 TOEIC 915 Novice level of Japanese, Spanish and French Exchange student experience (École des mines) and summer school activities (in Tokyo University) enable me to communicate with foreigners without any problems
<b>External Activities</b>	Staff and members of SNU's running club (Dalisha) <ul style="list-style-type: none"> <li>- Half marathon and more than ten times of 10km marathon run</li> </ul> Member of SNU Computer Science Society (SCSC) <ul style="list-style-type: none"> <li>- Participate in Python education activities and machine learning seminars</li> </ul> Samsung Dream Class Mentoring <ul style="list-style-type: none"> <li>- Mathematics and English Teaching of Low Income Middle School Students (2013 ~ 2014)</li> </ul>
